THE PHILBRICK FUND

The Philbrick Fund is now the only fund handled by the Selectmen. There have been some changes in the various items and a statement of the several amounts and the income from them is as follows:

In Town Treasury, \$1,701.25, yielding $3\frac{1}{2}\%$.

In Amoskeag Savings Bank, \$1,200, yielding 3%.

This amount (\$1,200) was derived from the sale of Manhattan Beach Railroad Stock.

During the year 1928 the Liberty Bond matured and this amount, \$150, is included in the amount \$1,701.25.

One-fourth of the income of this fund is payable to the School District for No. 1 School, and the remainder, after paying for the care of the Philbrick Cemetery, is payable to the Trustees of the Philbrick-James Library.

Deerfield, N. H., February 3, 1939.

This is to certify that we have examined the foregoing account of the Philbrick Fund and found it correct.

Auditor.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board of Deerfield:

I have the honor of presenting herewith my tenth annual report.

Your community, like many others in our state, has been alert to the need of improved educational facilities. Your committee, appointed at the annual meeting in 1938, has visited and studied two, three, and four-room rural schools in Amherst, Candia, Barrington, Bradford, Dunbarton, Greenland, and Hooksett. A comparison has been made between the cost of operating several one-room schools and the maintenance of a consolidated school. It has been found that the allotment of state aid for the current maintenance of elementary schools increases materially with the improved facilities provided by consolidation.

In comparison with the median cost per pupil in the elementary schools of the state, which for the year ending in June, 1938, was \$79.98, the following figures computed for the same fiscal year are significant.

<i>Deerfield Schools</i>	<i>Center</i>	<i>Parade</i>	<i>Pond</i>	<i>West</i>
Total pupils enrolled	37	28	22	6
Average membership	34	23	20	6
Per pupil cost of administration and general expenses	\$9.88	\$9.88	\$9.88	\$9.88
Instruction	30.41	40.90	44.44	112.27
Teachers				
Text books				
Supplies				

Maintenance of plant	7.95	9.30	10.13	15.75
Janitor				
Fuel				
Supplies and repairs				
Auxiliary Agencies	27.41	27.41	31.49	2.69
Health				
Transportation				
Total cost per pupil	\$75.65	\$87.49	\$95.94	\$140.59

Where consolidation is effective the curriculum is found eventually to include at reasonable cost music, sewing and cooking, manual training, and physical education. Such schools tend to become centers of community activity for the adult as well as for the juvenile population. The neighborhood spirit of "my school" finds expression in the community activities of "our school".

This year there has occurred one change in the staff of teachers. Miss Doris M. Fowler of North Pembroke was selected to succeed Mrs. Marjorie Marston Buzzell who withdrew from the profession upon the completion of her contract in June, 1938. Miss Fowler is a graduate of Concord High School and of the three-year elementary course at Keene Normal School. She is teaching the four primary grades at the Parade.

Materials for instruction in English have been brought up-to-date by the adoption of the "Daily-Life Language Series" in grades three to six inclusive. Junior high school textbooks, "Elements of English" by Stella S. Center of the Theodore Roosevelt High School, New York, and Ethel E. Holmes of the Wyman School, Denver, have been adopted in the seventh and eighth grades.

The purchase by Deerfield in conjunction with the other districts of this union of a Keystone motion picture projector and "daylight" screen for use in their schools makes available a wealth of subjects best presented through visual education. Free films representing history, geography, and science are loaned by the State Board of Education. Over a thousand

other films, including literature and the latest in travel and invention are procurable for a small rental fee. The equipment is so simple that it may be operated by the teacher or an older pupil.

At the Parade a chain link fence, enclosing three sides of the playground, adds greatly to the attractiveness of the yard and to the convenience of playground supervision. The use of steel posts set into cement increases the efficiency and permanency of such an investment.

In the annual spelling contest of 1938, Deerfield was represented by Walter Wilson from the Pond School, Jeanne Boutin and Jeanette Mandigo from the Center and West Schools respectively. A score of 282 points out of a possible total of 300 gave the team a creditable position among the other towns in the union.

Attendance in all schools except the Center is exceptionally good. The number of tardinesses per pupil has been reduced from 2.4 to 1.2. The results of achievement tests given this winter show a grade average equal to the standards attained by thousands of pupils in graded schools. Of fourteen pupils from Deerfield, whose high school marks have been reported to the Superintendent, eight have a standing in the upper half of their classes. The continuance of health supervision over a period of years with its home visits, dental and other clinics, hot lunches, and the correction of individual defects has contributed in no small measure to these attainments.

More and more your Superintendent has come to realize the interest of leading citizens in maintaining and improving opportunities for the individual child and in providing more adequate facilities for all the children.

Respectfully submitted,

GEORGE H. HARMON,
Superintendent of Schools.

February 14, 1939.
